H50 ANTI-FOG ERGO TEMPLE SPECTACLES

- Ergonomic temple for comfort fit.
- Temple tip locking catch.
- Temple ratchet adjustment.
- Hard coated polycarbonate lens.
- Anti-fog and anti-scratch.
- Soft nose pad.

Ergonomic temple provides comfortable, self-adjusting and a more secure fit to the users head. The swaying ergo temple pieces will spread the pressure evenly across the users temple area.

Temple ratchet adjustment works closely with the ergo temple to help the user wearing the product with different pantoscopic angles, suitable for all head shapes.

- Conform to EN166:
- Optical Class:1
- F T - (Low impact energy at extreme temperatures)
- 2C-1.2 - UV Filter
- K - Scratch Resistant
- N - Fog Resistant

BOLLE SAFETY TRACKER

Bolle Tracker safety glasses provides protection from all mechanical risks and also chemical risks, making it unique in the safety glasses range.

This platinum permanent coating applied on both surfaces of the lens makes them highly scratch-resistant (1.4 cd/m²), gives them a high resistance to the most aggressive chemicals and slows the appearance of fogging.

- Interchangeable foam reinforcement with indirect ventilation
- Upper protection
- Lower protection
- Removable adjustable strap
- Straight temples
- Anti-scratch/Anti-fog

MSA10115851

V-GARD PROPIONATE MOULDED VISOR LARGE

- V-Gard propionate visors provide impact protection, and are good for those applications where chemical splash hazards also exist
- They offer increased impact protection and superior optical quality over acetate visors
- Being moulded makes them optically correct, and helps ensure they maintain good visibility and reduced eye fatigue.
- Their chemical and heat resistance is better as they are thicker and not as stressed as flat visors.

MSA10115851 cannot be worn in combination with helmet mounted ear defenders or MSA chingards. It can fit to the V-Gard Browguard, MSA10127061

• The visor dimensions are 203 x 457 with a thickness of 2.5mm.

• The visor conforms to the following:

EN166:2001 Personal Eye Protection (1B 3)

1 Optical class 1 for permanent usage

B Medium energy impact protection (B = 120 m/s)

3 Protection against droplets and splashes of liquids

3M SECUREFIT SAFETY SPEC

Precision engineered safety eyewear featuring innovative 3M Pressure Diffusion Temple Technology. The spectacle temples self-adjust to fit a wide array of head shapes and sizes. 3M SecureFit SF200Series Spectacles provides noticeably higher levels of personal comfort and security of fit while reducing the need to stock multiple frame sizes. The stylish design weighs just 18g for lightweight comfort. Anti-scratch and anti-fog lens coatings. Ideal for use in a wide range of industries.

3M Pressure Diffusion Temple Technology

3M SecureFit Protective Eyewear features 3M Pressure Diffusion Temple Technology. The flexible temple area of the spectacle diffuses pressure to enhance comfort while not compromising the security of fit across different facial profiles.

How does the technology work?

- The temple area of the frame incorporates flexible ribs that are slightly offset from each other. When the frame bends, the ribs flex in different directions to diffuse the pressure throughout the temple area.

UVEX I-LITE PLANET

The uvex i-lite planet with clear lens is part of the uvex planet series which features sustainable manufactured models made from recycled, bio-based material. 39% of the side arm is made from the castor oil plant which is a biobased renewable raw material. The couplings and hooks are made of 22% recycled PET bottles and the soft face seal of the guard version is made up of more than 35% recycled granulate, which comes from production waste.

- Member of the uvex i-range planet; a versatile 3-in-1 safety eyewear range that allows eyewear to be adapted according to workplace hazards
- Large, flat lens delivers unrestricted field of vision
- X-tended sideshield offers additional protection from hazards
- Side arms with multi-incline points allow for a high level of individualisation to ensure a good fit for all facial shapes and head widths
- Ergonomically shaped side arms provide a secure fit without pressure
- Robust polycarbonate lens with uvex's proven supravision coating technology - permanent anti-fog and scratch-resistant lens
- UV400 - 100 % protection against dangerous UVA and UVB radiation up to 400 nm
- Metal-free
