-  Energy absorbing
-  Oil resistant outsole
-  Protective toecap + midsole
-  Slip resistant outsole SRA
-  Waterproof
-  S5

## ACIFORT THIGH WADER F/S

Practical, durable green wading pants. Features a steel tipped toe and steel midsole for impact and penetration protection.

The Acifort compound is constructed from three different components:

1. Antistatic components
2. Nitrile Rubber is adding comfort to standard PVC
3. Polymers guarantee the maximum lifetime for PVC boots

- Steel toe cap
- Steel midsole
- Oil resistant sole
- Energy absorbing
- Standard: EN ISO20345:2011 S5 SRA

**£68.75**  
excluding VAT

## CLICK 4 D-RING BOOT

- 4 D-Ring Chukka Boot
- Dual density PU
- 200 Joule steel toe cap
- Shock absorber heel
- Anti-static
- Oil resistant sole
- Slip resistant
- Leather upper
- Conforms to EN ISO 20345:2011 S1 SRC

**£12.75**

## CLICK TRENCHER PLUS SIDE ZIP BOOT

Internal metatarsal boot made with poron XRD technology. Designed for comfort and to carry out the same tasks as a normal, less flexible external metatarsal boot. Extreme impact protection.

- Black full grain water resistant leather upper
- YKK H/Duty side zip for easy on/off action
- Padded collar
- Waterproof membrane lining
- Breathable thinsulate insulated mesh lining
- Full length foam fabric foot bed for excellent comfort
- Poron XRD internal M-Guard metatarsal impact protection
- Heel support
- Ankle protection
- TPU protective scuff cap
- Polyurethane/rubber injected sole
- Heat resistant outsole to 300 degrees Celsius HRO
- Anti-static
- ESD
- Non Metallic
- 200 Joule composite toe cap
- Reinforced midsole
- Shock absorber heel
- SRC slip resistance
- Winter grip compound within the outsole for enhanced slip resistance
- Conforms to EN 20345:2011 S3 M HRO WR SRC

## CLICK WATERPROOF SIDE ZIP BOOT

Lightweight S3 composite side zip boot with Poron XRD extreme impact metatarsal protection. Poron XRD technology is designed for comfort and to carry out the same tasks as a normal less flexible external metatarsal boot.

- Nubuck top grain leather upper
- YKK heavy duty side zip for easy on/off action
- Breathable thinsulate CI cold insulating mesh lining
- Waterproof membrane lining
- Quality comfortable PU insole
- Poron XRD internal M-Guard
- EVA/Rubber cemented HRO heat resistant outsole
- Anti-static
- 200 joule composite toe cap
- Kevlar midsole
- Shock absorber heel
- TPU protective scuff cap
- SRC rated slip resistance
- Conforms to EN 20345:2011 S3 WR M CI HRO SRC

## Cosmo Safety Boot

Safety boots in soft, hard-wearing, water repellent, Pull-up leather with PU-reinforced scuff cap, double lace and Kevlar® DuPont™ stitching that ensure outstanding mechanical resistance to traction and heat.

Safety footwear in protection class S3 HRO HI CI SRC with special insulation against heat and cold.

The sole in PU/Vibram is particularly suited for use on treacherous surfaces and uneven ground, improving stability and grip.

Aluminium AirToe toe cap to protect the tip of the foot and Save & Flex® PLUS, all-fabric, anti-puncture system stitched directly onto the upper for total coverage of the surface of the foot.

Comfort is guaranteed by the WOW insole, an anatomic insole in soft, breathable, anti-bacterial polyurethane whilst the Infinergy® system ensures over 55% of energy is returned with each step. The WingTex air tunnel inner lining ensures breathability and dispersion of moisture.

Ideal work shoes for wet and cold environments, for building sites, gardens and agriculture, installations, port areas, road works and maintenance and in every situation in which outdoor footwear is required that has a particular need for the sole of the shoe to be insulated against heat and cold and the sole to have greater resistance to heat. Anti-slip, oil resistant and abrasion resistant sole.

## Grampian Safety Boot

Grampian is a model of work footwear in S3 SRC CI ESD standard protection with soft full-grain leather upper resistant to water and protective, ideal for use outdoors and in a humid environment.

Mid-cut work shoes with Infinergy® insert secure an energy return of over 55% more with each step, improving performance and general well-being during the working day.

The PU / PU sole is anti-slip, anti-oil, anti-abrasion and anti-static and provides a special protection from the cold (A temp.  $\leq 10^{\circ}\text{C}$ ).

The lightweight aluminium Airtoe® toecap ensures foot protection, while the presence of the Save & Flex Plus anti-perforation system totally "Metal-Free" provides 100% protection of the foot surface.

These comfortable and water-resistant safety shoes with WingTex air tunnel lining ensure high breathability and antibacterial, anatomic and shockproof given by the WOW Gel insole. The polyurethane and soft gel insole lifts the heel and protects the foot from minor bumps and pressures, adapting perfectly to the shoe.

The Grampians are Men's water-resistant boots for work ideal for carpenters, bricklayers, gardeners and farmers, gas station attendants, mechanics, tire specialists, electricians, welders, and warehouse workers, trucking and logistics, craftsmen, and house painters.

## Cambrian Safety Boot

Cambrian is a comfortable and breathable model of safety shoes with an upper in soft water-resistant Pull-up leather and WingTex air tunnel lining for air circulation and prolonged comfort.

Highly breathable work shoes with Infinergy® system ensuring energy return: over 55% more energy with every step!

These water-resistant safety shoes have an AirToe® composite toecap to protect the tip of the foot and the Save & Flex Plus anti-perforation system. It is textile and sewn directly on the upper to guarantee maximum safety and protect against perforation due to sharp objects such as nails or splinters.

Cambrian are oil and water-resistant work shoes that are very comfortable thanks to the soft and enveloping WOW Gel insole that covers the foot from minor bumps and pressures, adapting perfectly to the shoe.

S3 SRC CI ESD standard protection work footwears, with special protection of the sole from the cold and anti-slip, anti-oil, anti-abrasion and antistatic properties.

Water-resistant work boots appropriate for outdoor use in a humid environment and, particularly for trucking and logistics, craftsman, house painter, carpenter, bricklayer, gardener and farmer, the gas station attendant, mechanic, tire dealer, worker, electrician, welder, warehouse worker.

## PARKER LIGHT SAFETY BOOT ESD

Ultra-light anti-static safety shoes with soft nubuck-effect microfibre, water repellent and S3 SRC CI ESD protection class upper.

Ankle-high safety shoes with light aluminium Airtoe® toecap and new generation abrasion-resistant, oil-resistant, no-slip and anti-static PU compound sole.

Lighter safety shoes made with innovative materials for the construction of the sole and of the perforation-resistant system, consisting of ultralight puncture-resistant textile insole. The result is a safety shoe whose weight has been significantly reduced, without compromising safety, to the benefit of workers' wellness.

Highly breathable safety shoes for men/ women with WingTex air tunnel lining and anatomical, antibacterial and sweat-proof U-Power Original insole.

The particular protection of the sole from the cold ( $\leq 10^{\circ}\text{C}$ ) make these safety shoes particularly suitable for: electricians, carpenters, craftsmen, warehouse workers, and the logistics and transport sectors.

## UVEX 1 X-TENDED SUPPORT S3 SRC LACE-UP BOOT

Uvex 1 safety shoes in protection classes S1 P and S3 provide optimal protection and support for the individual movements of the human body. This safety shoe has been designed based on the latest physiological research and innovative technologies, to reduce work-related stresses on the musculoskeletal system and optimise the wearer's wellbeing. The ergonomic construction of the uvex 1 safety shoes offers the perfect balance between protection and comfort.

- Protection class S3 in accordance with EN ISO 20345:2011 with additional marking for excellent slip resistance (SRC)
- Meets the ESD specification with bleeder resistor under 35 megohms
- 100 % metal-free uvex xenova® toe cap – compact, anatomically formed, not thermally conductive and with good side stability
- Ergonomically designed outsole made from dual density polyurethane with excellent slip resistance
- Medial and lateral heel support for the foot with specially designed side frame – provides additional protection from ankle twisting, stabilises and guides the foot while providing impact protection

## MATT LIGHT SAFETY SHOE ESD

Lightweight safety shoes with Airtoe® Aluminium toecap and sole made with an ultra light innovative new generation PU compound that significantly reduces the weight of the shoe.

The lightness of this safety shoe allows for greater freedom of movement, greater energy and better performance.

Safety shoes for women and men, with upper in PUTEK® star highly resistant to abrasion, water repellent and breathable. Toe protection with abrasion-resistant scuff cap.

Breathable shoes with no-slip, anti-static, oil-resistant and abrasion-resistant sole with innovative ultralight puncture-resistant textile insole, ideal for: craftsmen, electricians, carpenters, warehouse workers, and the logistics and transport sectors.

Comfort and well-being guaranteed by the Wingtex breathable air tunnel lining and the U-Power Original insole in light polyurethane compound soft polyurethane, anatomical, breathable and antibacterial.

Conforms to EN ISO 20345:2011

S3 SRC CI ESD protection class safety shoes which offer special protection of the sole from the cold.

## LOGAN LIGHT SAFETY SHOE ESD

Low and light safety shoes with innovative perforation-resistant system consisting of an ultralight puncture-resistant textile insole and new generation PU compound sole.

These new highly innovative materials have allowed a considerable reduction in the overall weight of the shoe to the benefit of the well-being of the worker.

Super light S3 SRC CI ESD standard safety shoes with particular protection of the sole from the cold ( $\leq 10^{\circ}\text{C}$ ).

High-sturdiness PUTEK® star upper and toe protection with abrasion-resistant scuff cap. Non-slip, oil-resistant, abrasion-resistant and anti-static sole.

Super light safety shoes suitable for wet and dry environments and, in particular for: electricians, craftsmen, carpenters, warehouse workers, and the logistics and transport sectors.

Highly breathable safety shoes with air tunnel lining that ensures the dispersion and absorption of moisture and the U-Power original insole in polyurethane compound.

Conforms to EN ISO 20345:2011

## THOMAS LIGHT SAFETY SHOE ESD

Lightweight safety work shoes with upper in Nubuck-effect soft microfibre.

These low work shoes, with Airtoe® Aluminium light toe cap, in S3 SRC CI ESD protection class, feature an ultra-light sole built using a new generation anti-abrasion, anti-oil, anti-slip and antistatic PU compound.

The brand new puncture-proof textile insole makes these work shoes lighter than traditional models ensuring the protection of the sole of the foot.

The use of these innovative materials for the outsole and the anti-puncture system, together with the Airtoe® aluminium toe cap, allow a considerable reduction in the overall weight of the work footwear, which greatly benefits the performance and well-being of the worker.

CI safety footwear, with special protection of the sole from the cold, ideal for: electricians, carpenters, craftsmen, warehouse workers, and for workers in the transport & logistics sector.

The U-Power Original insole, built using a light polyurethane compound ensures comfort and foot health thanks to its antibacterial, anatomical and breathable characteristics. WingTex Air tunnel lining.

Safety shoes for men and women.

Conforms to EN ISO 20345:2011

## UVEX 1 X-TENDED SUPPORT S1 SRC SHOE

### General features

- Particularly lightweight and versatile perforated S1 safety shoe
- Made from synthetic materials, so suitable for people allergic to chrome
- All sole materials are free of silicones, plasticisers and other paint wetting impairment substances
- Elastic laces for quick, individual adjustment, normal laces also provided
- Colour: black, red
- Available in sizes: 35 to 52

### Protection features

- Protection class S1 in accordance with EN ISO 20345:2011 with additional marking for excellent slip resistance (SRC)
- Meets the ESD specification with bleeder resistor under 35 megaohms
- 100 % metal-free uvex xenova® toe cap – compact, anatomically formed, not thermally conductive and with good side stability
- Ergonomically designed outsole made from dual density polyurethane with excellent slip resistance
- Medial and lateral heel support for the foot with specially designed side frame – provides additional protection from ankle twisting, stabilises and guides the foot while providing impact protection

### Comfort features

- Outstanding wearer comfort as a result of a recently developed last and the climate-optimised, breathable materials with perforation
- Virtually seam-free construction from high-tech microvelour material to eliminate pressure points
- Removable anti-static comfortable insole, with a moisture transport system and additional shock absorption around the heel and forefoot
- Soft padding on collar and tongue

£104.44  
excluding VAT

## ACIFORT CONCRETE F/S

The only real boot solution for concrete work, protecting construction workers who are involved in structural work. Based on a modified Dunlop® Acifort® compound, with a higher concentration of added polymers and nitrile, the boot offers an excellent resistance against bases that are found in concrete chemicals. The dense compound protects against protruding objects and the rigid outsole offers extra comfort and protection when walking on concrete formwork.

- Ankle protection and reinforced heel area assure safety in all directions.
- Unique rib-design additional protection
- Resistance to: various chemicals found in concrete

# PUROFORT THERMO+ FULL SAFETY WELLINGTON

Dunlop has improved its Purofort® Agri Range:

1. Lining; antibacterially treated, recognisable Dunlop red
  2. Improved insole; premium, 3x better moisture absorption, 100% better energy absorption
- In addition, the communication on the boot and the Dunlop pair box has been improved. The Dunlop® Purofort® Thermo+ is certified according to the most recent European standards.

A strong, durable Purofort boot for a variety of uses in the agricultural sector. Excellent thermal insulation for temperatures down to -50°C thanks to the Purofort material technology. Shock-absorbing sole offers comfort for daily use. An easy-to-clean antislip tread for practical use on the farm. Features a steel-tipped toe and steel midsole for impact and penetration protection.

- Toecap protection
- Midsole protection
- Energy absorbing sole
- Antistatic
- 100% Waterproof
- Oil Resistant outsole
- Slip resistant
- Cold insulating
- Resists minerals, animal and plant oils and fats, disinfectants, fertilizer, solvents, various chemicals.
