SUPERPLASMA PL SAFETY HELMET

- Approved to EN 12492 (The standard for Mountaineers and industrial work at heights)
- Maximum ventilation. The air intakes and internal outflow channels guarantee effective breathability
- Helmet is equipped with strong external carrying clips with front antislid insert, compatible with all headlamps with elastic bands
- The air intakes are equipped with an anti-intrusion grille that prevents entry of debris whilst maintaining breathability
- Four point chinstrap crossed at the back to secure the helmet to the head better. Safety release system allows quick fastening and opening of the locking mechanism in conformity with EN 12492. Provided with lateral divider for adjusting the length of straps
- Special hook on the chinstrap which allows the helmet to be attached to the harness
- The Sanitized® treatment is an antibacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odours. Thanks to its hygienic function, it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin.
- High-tech fabric that dries very quickly, helping the dispersion of moisture to the outside and leaving a pleasant feeling of freshness.
- The innovative and exclusive UP & Down technology ensures a precise and comfortable fit around the neck. A centre wheel and two side flaps allow quick adjustment of the helmet not only in width but also in height and tilt.
- Provided with attachment for fitting visors
- Range of face visors available which simply attach to the helmet.
- Full face visor KAWVI00003-015 is available (no screws required)
- Visors KAWVI00002-009 and KAWVI00002-015 available (No screws required)

V-GARD STANDARD BROWGUARD

V-Gard Headgear is a brow guard that in combination with the wide range of V-Gard Visors offers a lightweight, comprehensive face protection system. Featuring a durable and stylish HDPE frame and the choice of over 20 visors it is ideal for many applications. With the unique 3-point visor load system visors are fitted or removed easily and quickly. Adjustable to all head sizes and with two comfort sweatbands all day comfort is ensured.

- Self-retaining, easy-to-grip visor adjustment knobs – no more lost parts!
- Seven-point crown adjustment to fit most head sizes and shapes
- Replaceable, sweat-wicking, cushioned headband helps keep workers dry and cool
- Sweat-wicking ratchet cover keeps nape comfortable
- For use ONLY with wide range V-Gard Visors; not for use where head protection is required
- All non-metal construction
- Conforms to EN1731:2006 Personal eye protection. Mesh eye and face protectors
- Conforms to EN 166:2002 Personal eye protection. (When worn with appropriate visor)

PUSH-KEY SUSPENSION WITH SEWN IN PVC SWEATBAND

Push-Key suspensions designed exclusively for MSA V-Gard® Industrial Safety Helmets. The Push-Key suspension with its innovative adjustment concept brings an extraordinary way to enhance user retention and comfort. Push-Key the new suspension with the best cost-benefit ratio offered in the market.

MSA Push-Key suspension exclusive features and benefits

EASE OF USE:

- This is the fastest sliding suspension on the market: simple push to loosen, squeeze to tighten
- Can be adjusted with one hand even when worn

SURE FITTING:

- It offers greater retention capacity than competitive sliding suspensions because it's so much easier to select the best adjustment position

ADJUSTABILITY:

- 2 levels of nape adjustment for fitting comfort
- Designed to avoid interference with other PPE such as ear muffs

SWEATBAND COMFORT:

- 2 different options: sewn in PVC perforated wipeable or sweat-wicking foam
- Also available Terry cotton washable sweatband, MSA696688 that can be used over both sewn in PVC or replaceable foam sweatbands for increased user comfort

FAS-TRAC III SUSPENSION WITH SEWN IN PVC SWEATBAND

Fas-Trac III ratchet suspensions designed for MSA V-Gard® industrial safety helmets.

Extensive customer research shows the Fas-Trac III suspension was preferred by most users over what they were currently wearing because its improved helmet comfort, retention and stability whilst being easy to use with or without gloves

MSA Fas-Trac III suspensions features and benefits

BALANCE & STABILITY:

- Lower nape strap improves retention: Helmets stay on when leaning over
- Adjusts for a custom fit to the back of the head

HEADBAND COMFORT:

- The comfort pad by separating the ratchet from the head, cradles the head increasing comfort and cooling airflow
- Prevents hair from getting pulled

EASE OF USE:

- Ratchet offers smooth rotation: reduced effort to turn
- Easy grip knob adjustable even with gloves on

ADJUSTABILITY:

- Three levels of nape height adjustment giving superior nape fit
- Avoids interference with other PPE such as ear muffs

SWEATBAND COMFORT:

- Largest sweatband surface area on the market covers more of the headband and user's forehead for increased comfort
- 2 different sweatband options: sewn in PVC perforated wipeable or sweat-wicking washable foam (breathable fabric allows direct air permeation)
- Replaceable foam sweatband can be attached over the existing sweatband without demounting the suspension
- Also available Terry cotton washable sweatband, MSA696688 that can be used over both sewn in PVC or replaceable sweatbands for increased user comfort

PREMIUM FORESTRY KIT WITH CHINGUARD

• V-Gard® accessory system kit designed to offer easy customer solutions for a variety of needs – all in one convenient box !

Kit components:

- Orange V-Gard 500 vented helmet with Fas-Trac® III suspension (Wheel ratchet and sweat-wicking foam sweatband)
 - Standard V-Gard frame
 - V-Gard metal mesh visor
 - V-Gard Hearing Protection Low (SNR 28dB)
 - Neck Curtain PVC
 - Retractable chin guard
- Robust frame to withstand chainsaw rebound
• Unique retractable plates allow greater flexibility of head movement both up and down, as well as side to side

Visor benefits include:

- Reliable protection with excellent visibility and water run off
 - Wide stainless-steel mesh with honeycomb design for enhanced visibility
 - Visual Light Transmittance excellent at 74%!
 - Brown shade to reduce light reflection
 - Market leading impact protection certified to EN 1731 F (45 m/s)
 - Wide face coverage
 - Unique retractable plates allow greater flexibility of head movement both up and down, as well as side to side
- Helmet certified to EN 397: 2012 (-30°C, LD)
 - Visor certified to EN1731-F (protection against High-Speed Particles at 45 m/s)
 - Ear defenders certified to EN 352-3:2002 and INERIS to EN ISO 80079-36: 2016 & CEI/TS 60079-32 : 2017 for safe use in ATEX areas:
 - Dust: zones 20, 21, 22 (all zones)
 - Gas: zones 1 & 2 with gas group IIA (Propane)

V-GARD 950 ELECTRICIAN HELMET WHITE SET

Balanced lightweight electrician's safety helmet, non-vented, with 6-point Fas-Trac® III ratchet suspension and GS-ET-29 class 1 face shield certified for protection against arc flash. For use where top impact hazards to the head, chemical splash, Ultra-Violet radiation, molten metal splash or electric arc to the face exist.

- The helmet is made of ABS for strength and lateral crush protection (LD option)
 - Modern, dynamic with sports styled shell
 - Low profile (patented visor mechanism which minimises helmet shell size)
 - Channel around perimeter of the helmet diverts rain and debris from user
 - The face shield has premium anti-fog/anti-scratch coated visor fits over all corrective and safety glasses
 - 6-point Fas-Trac® III ratchet suspension with premium washable and replaceable sweatband
 - Complete with 4-point chinstrap for better helmet retention
 - Helmet delivered in a protective reusable storage bag
 - Compatible with hearing protection
 - Optional chin cup made with arc flash resistant materials, Arc flash ear flaps, badge & Lamp holders, logo customisation and stickers available upon request
 - Other colour helmet shells available - Yellow, Red, Green, Blue and Orange
- Conforms to the following Standards
- Anti-static assembly; certified electrostatic-INERIS for use in ATEX/explosive environments
 - Electrically insulating helmet meeting EN 397:2012 Industrial safety helmets 440 V AC and EN 50365 Insulating helmets for use on low voltage installations 1000 V AC
 - EN166:2001 personal eye equipment 2C-1,2 1 3 B 8-1-0 9 KN
 - GS-ET 29 Electric Arc, class 1, 4KA

V-GARD 950 CLASS 2 ELECTRICIAN HELMET SET

The V-Gard 950 Class 2 safety helmet has been developed for electrical activities requiring demanding arc flash protection up to 7 kA. This balanced and lightweight unvented electrician's safety

- Helmet made of ABS for strength and lateral crush protection (LD option)
 - Modern, dynamic with sports styled shell
 - 6-point Fas-Trac® III ratchet suspension with premium washable and replaceable sweatband
 - Ratchet offers smooth rotation
 - Balance and stability with a lower nape strap
 - Low profile (patented visor mechanism which minimises helmet shell size)
 - GS-ET-29 Class 2 (7kA) light blue integrated faceshield with light transmittance $\geq 75\%$, protecting against impact, chemical splash, UV radiation, molten metal splash and electric arc
 - Protective foam at the top of the faceshield for an enhanced seal
 - Premium anti-fog/anti-scratch coating faceshield fits over all corrective or safety glasses
 - Reliable one-handed smooth movement, even gloved
 - 2 faceshield positions (up or completely down)
 - Unique extended ear and neck flaps fitted, ensuring protection against arc flash up to 7kA; 2 positions: working or stand-by
 - Channel around perimeter of the helmet diverts rain and debris from user
 - Complete with 4-point chinstrap for better helmet retention
 - Protection against molten metal (MM option)
 - Electrically insulating helmet meeting EN 397 440 V AC & EN 50365 1000 V AC
 - Anti-static assembly; ELECTROSTATIC-INERIS certified for use in ATEX/explosive environments
 - Helmet delivered in a protective reusable storage bag
- MSA Reference: GVF1A-C0AA001-000

PAPR WITH FACE SHIELD AND HARD HAT

- The PureFlo 3000 is a modular, lightweight PAPR that provides a lower total cost of ownership in light-to-medium duty environments. An all-in-one respirator optimised for maximum mobility, the PureFlo 3000 integrates head, face, eye, and hearing protection solutions for a range of light-to-medium duty environments. A breakthrough in head-borne weight, comfort, and durability, the PureFlo 3000 is designed to keep industrial workforces safe, while simultaneously enhancing productivity.
- No hoses or leads reduces snag hazards when working in tight spaces
- No belt mounted blower unit required thereby improving user comfort, ideal for use with a range of protective workwear
- No requirement for face fit testing, can be used safely with beards and/or prescription spectacles
- Modern, industrial design - EN Approved
- LED low battery and airflow indicators
- Quick change P3 HEPA filter with optional pre-filter
- Assigned Protection Factor (APF) 40
- Compact, fast-charging Lithium Ion battery
- Optional hearing protection and communications

WELDING PAPR WITH HARD HAT

- The PureFlo 3000 (Welding) is a modular, lightweight PAPR that provides a lower total cost of ownership in light-to-medium duty environments.
- An all-in-one respirator optimised for maximum mobility, the PureFlo 3000 (Welding) integrates head, face, eye, hearing protection and ADF lens for use in welding environments.
- A breakthrough in head-borne weight, comfort, and durability, the PureFlo 3000 is designed to keep industrial workforces safe, while simultaneously enhancing productivity.
- The auto-darkening welding filters are designed for Arc welding or cutting applications.
- The unit is suitable for all Arc welding processes such as MIG, MAG, TIG, SMAW, Plasma Arc and Carbon Arc.
- No hoses or leads reduces snag hazards when working in tight spaces
- No belt mounted blower unit required thereby improving user comfort, ideal for use with a range of protective workwear
- No requirement for face fit testing, can be used safely with beards and/or prescription spectacles
- Pro ADF Deluxe (Variable shade 4-8/8-12)
- Modern, industrial design - EN Approved
- LED low battery and airflow indicators
- Quick change P3 HEPA filter with optional pre-filter
- Assigned Protection Factor (APF) 40
- Compact, fast-charging Lithium Ion battery
- Optional hearing protection and communications

UVEX PHEOS PLANET B-WR

The uvex pheos planet helmet is an example of the planet series product system. The helmet shell is made using up to 30% bioplastic and the headband is made using 50% degranulated helmet shells, which significantly reduces process-related waste during production. All individual packaging is made of regranulated material and the packaging is single-grade and can be returned to the recycling chain after use.

- Part of the planet series product system
- Helmet shell is made of up to 30% bioplastic
- 50% of the material for the headband is made of ground helmet shells
- All individual packaging is made of regranulated material and has been taken from the recycling economy
- The user instructions are printed on 100% recycled paper
- Suspension harness with wheel ratchet system for variable width adjustment
- Safety helmet with helmet torch slot on the front
- Euroslot adapters on the side (30 mm) for attaching earmuffs and the uvex pheos visor system
- Meets EN 397 standard and additional requirements for very low temperatures (-30°C) and molten metal (MM) splash
- Suspension harness with wheel ratchet system for variable width adjustment
- Six-point textile band attachment ensures excellent fit and comfort
- Three adjustable air vents for maximum ventilation

Size 52 to 61 cm
EN 397, -30°, MM
