3MTR3600

TR-3600 PRE FILTER

3M Pre-filter TR-3600, for Versaflo TR-300 PAPR.
When installed inside the filter cover of a TR-300 PAPR, the TR-3600 pre-filter can extend the life of the HE filter by capturing large particles that would otherwise clog the HE filter.

PAPR WITH OVER HOOD

- The PureFlo 3000 with PAPR frame and reusable/disposable hood is a lightweight, all-in-one respirator optimised for maximum mobility and protection in laboratory, pharmaceutical and healthcare environments.
- A breakthrough in head-borne weight, comfort, and durability, the PureFlo 3000 is designed to keep industrial workforces safe, while simultaneously enhancing productivity.

• No hoses or leads reduces snag hazards when working in tight spaces

- No belt mounted blower unit required thereby improving user comfort, ideal for use with a range of protective workwear
 - No requirement for face fit testing, can be used safely with beards and/or prescription spectacles
 - Reusable/disposable hood to protect from chemicals, pathogens and viruses
- Modern, industrial design - EN Approved
LED low battery and airflow indicators

- Quick change P3 HEPA filter with optional pre-filter
- Assigned Protection Factor (APF) 40
Compact, fast-charging Lithium Ion battery
Optional hearing protection and communications

3M4251PLUS

3M 4251+ FFA1P2 R D HALF MASK

3M 4251+ Maintenance Free Gas/Vapour and Particulate Respirator

3M™ Maintenance Free Half Mask 4251+ is a simple and ready-to-use respirator with an integrated cartridge and filters. A newly enhanced valve assembly helps to reduce exhalation breathing resistance, and the close-fitting, non-silicone, textured face seal is soft and non-allergenic. Includes a resealable bag for hygienic storage and transportation.

- Effective and comfortable protection against organic vapour and hazardous particulates
- A newly enhanced valve assembly helps to reduce exhalation breathing resistance for improved breathing comfort
- Lightweight, well-balanced, low profile design
- Integrated cartridge and filters mean it's ready to use and maintenance free
- Soft, close-fitting face seal made with textured, non-allergenic material
- Adjustable head cradle and easy to fasten neck straps
- Centrally-positioned exhalation valve helps reduce heat and moisture build-up in hot and humid conditions
- FFA1P2 R D protects against organic vapours, with a boiling point greater than 65 °C, up to 10 x Workplace Exposure Limit (WEL) or 1000 ppm (whichever is lower), and 10 x WEL for particulates
- Includes a resealable bag for hygienic storage and transportation

3M9320PLUSGEN3

3M 9320+GEN3 AURA FFP2 MASK

3M Aura 9320+GEN3 Flat-Fold Particulate Respirator

The third generation of the best-selling 3M Aura disposable respirator, featuring the original 3-panel, flat-fold design. Our disposable respirator is made using 3M Advanced Electret (filter) Media (AEM), a high-performance material that's been engineered for easy, unrestricted breathing. The 3M Safe Guard Product Authentication Process gives you the confidence to know the product you're wearing is a genuine, 3M-manufactured product.

- Original 3-panel, flat-fold design fits a wide range of face shapes and sizes
- Innovative tabs on the upper and lower panels simplify positioning and adjustment
- Braided headbands are colour-coded (blue for FFP2) for quick and easy identification
- Sculpted upper panel conforms to the nose and contours of the face for an effective seal
- Embossed upper panel reduces eyewear fogging
- Easy to store away with flat-fold design and individual wrapping
- FFP2 (APF 10) breathing protection against hazardous work environments

3M 9322+GEN3 AURA FFP2V MASK

3M Aura 9322+GEN3 Flat-Fold Particulate Valved Respirator

The third generation of the best-selling 3M Aura disposable respirator, featuring the original 3-panel, flat-fold design. Our disposable respirator is made using 3M Advanced Electret (filter) Media (AEM), a high-performance material that's been engineered for easy, unrestricted breathing. It features the 3M Cool Flow Comfort Valve which opens more easily and for longer than the original 3M Cool Flow Valve, reducing heat build-up by allowing a higher percentage of warm, exhaled air to escape. The 3M Safe Guard Product Authentication Process gives you the confidence to know the product you're wearing is a genuine, 3M-manufactured product.

- Original 3-panel, flat-fold design fits a wide range of face shapes and sizes
- New 3M Cool Flow Comfort Valve allows a greater percentage of warm, exhaled air to escape, helping to increase your comfort
- Innovative tabs on the upper and lower panels simplify positioning and adjustment
- Braided headbands are colour-coded (blue for FFP2) for quick and easy identification
- Sculpted upper panel conforms to the nose and contours of the face for an effective seal
- Embossed upper panel reduces eyewear fogging

M-306 VERSAFLO HELMET GP SEAL

3M Versaflo M-Series Headtops

- GP face seal.

The all-new 3M Versaflo M-Series features lightweight, compact and well-balanced helmets that offer protection from a range of respiratory, impact and splash hazards.

Integrated Protection for Multiple Hazards

- Provides protection from specific respiratory, head and eye hazards
- Offerings for hearing protection (H31P3AF 300 available separately)

Modern, Well Balanced Design

- Lightweight with excellent balance
- Fully-adjustable head suspension
- A deflector allows users to direct the airflow inside the headtop for increased control and comfort

Straightforward Care and Maintenance

- Spare parts and accessories are quick, easy and intuitive to replace

New Visor

- Visor design combines excellent peripheral and downward vision with good optical clarity
- Lens provide chemical and scratch resistance

Protection

- Respiratory - Assigned Protection Factor of 20 when used with TR-300
- Features a flame resistant face seal for applications with hot particles
- Impact - EN166: B Medium Energy Impact Protection

S133S VERSAFLO HEADTOP

Manufactured using a general purpose, cost effective fabric, the S-133 Head Cover is the entry-level head cover for powered air respiratory protection

- Head cover with integrated head suspension providing head and face coverage
- Provides eye and face protection to EN166 - liquid splash and low energy impact (grade F) the same classification for impact resistance as safety spectacles
- Excellent field of view
- Ready to use out of the box
- Excellent field of view, particularly downwards.

When used in conjunction with 3M Powered and Supplied Air Systems the 3M S-133 offers and assigned protection (APF•) of:

Jupiter APF = 40
TR300 APF = 40
V500 APF = 40

- Assigned Protection Factor (APF)

3MS657

S657 VERSAFLO HEADTOP

Similar to the S-655, the 3M S-657 Hood uses a double shroud design for its respiratory seal; wearers can select on their seal design based on personal preference. The wearer should tuck the inner shroud into a shirt or protective coverall, which allows excess air to be channelled over the body for additional comfort.

The 3M S-657 Hood offers head, face, neck and shoulder coverage as well as providing eye and face protection to EN166 - liquid splash and low energy impact (grade F) the same classification for impact resistance as safety spectacles! Manufactured using a general purpose, fabric, the S-657 is a cost effective, practical powered air solution.

When used in conjunction with 3M Powered and Supplied Air Systems the S-657 offers an assigned protection factor (APF•) of:

- Jupiter APF= 40
- Dustmaster APF= 10
- TR-300 APF = 40
- V-500 APF= 40

Assigned Protection Factor (APF) as detailed in HSE HSG53.

3M 7502 MED SILICONE HALF MASK

This half facepiece was designed with the wearer in mind. Its soft sealing surface, along with a uniquely designed, 3M Cool Flow Exhalation Valve, enhances wearer comfort and face fit. It's made from a durable silicone and can be used with any of the 3M Filters and Cartridges, Series 2000, 5000, 6000 and 7093.

Features and Benefits

- New cool flow exhalation valve designed to help make breathing easier; also helps to reduce heat and moisture build up in mask.
- Durable and heat resistant, made from soft resilient silicone and heat-resistant.
- New soft seal design; advanced silicone material provides a softer feel on the face.
- Unique adjustments design helps to reduce tension and pressure points on the face providing unsurpassed comfort and helps reduce ring around the nose.
- Dual-mode head harness design adjust easily allowing user the option of wearing the respirator in either the traditional, or drop down mode.

Honeywell

H901EN FOLD FLAT PARTICULATE RESPIRATOR FFP2 NR

- H901EN particulate filter is CE-certified respirator
- It features FFP2 level, larger size, soft nose foam, and advanced filter media to help ensure good air permeability
- Comfort and secure seal. It provides users with a good solution for safe and comfortable particles protection
- Prevent both oil and non-oil particles and the filtering efficiency exceeds 94%
- The nose clip is made of high-strength plastic composite metal, and its bending resistance capacity is enhanced significantly compared with the metal nose clip
- The advanced sealing material is used for the nose pad, characterized by high fitness, softness and comfort; it can relieve the pressure on the nose bridge and make you feel more comfortable
- The elastic headband can help to relieve the pressure from the head; and it is suitable for long hours of use
- The big size offers much breathing space inside, more comfort

MOLDEX 5984 RESPIRATOR ABEK1P3

Lightweight maintenance free half mask with replaceable particulate filters.

The 5000 Series Half Masks have integral gas filters, making the mask disposable and exempt from the maintenance requirements of COSHH if disposed of within one month or when breakthrough occurs (whichever comes first).

When particulate filters get clogged they can be replaced for prolonged use of the mask.

The low profile design offers excellent field of vision and allows the mask to be worn with additional PPE like safety glasses.

FFABEK1 P3 R D size M/L. Organic, inorganic [Bp>650C], acid, & ammonia gases, P3 particulates

Make sure that the respirator itself is suited for the wearers particular face shape.
Make sure that the respirator is fitted correctly to get a tight seal and ensure safety against hazards in the workplace.

Important to remember it is the suitability of the respirator that is being tested

- Respirators sold separately•
